OK. I'll see what I might be able to line up in the meantime.

Dave - new option needed. Rick no longer available.

We can talk Monday.

We opened a PO for Rick EHAT for up to 80 hr of his time and we do not have any invoices from him yet. I don't have a feel for how much time he has put in to this point, but I believe there should be capacity left. I'll get in touch with him to see how much time he has incurred to date; Any sense of how much of his time might be needed for this current work? If we need to mod his PO to cover, that's fine.

Dave

Subject: Ehat Consulting - Engineering / Safety Evalu

David,

Do we have capacity remaining in the subcontract with Rick Ehat. Regardless, I am requesting an onsite evaluation by Rick or an equivalently qualified PE to inspect our retention ponds at Gladstone and inlet structure conceptual design / plans for the GK mine water HDPE pipe.

This will be needed as soon as possible.

Please let me know – thank you.
